

The Einstein Institute International Undergraduate Workshop

October 2-11, 2018

Description

The Einstein Institute of Mathematics at the Hebrew University of Jerusalem will host a 10 day undergraduate workshop, bringing together outstanding (2nd and 3rd year) undergraduate students from Israel and abroad.

The workshop will be centered around two seminar-style courses moderated by **Jasmin Matz** and **Eran Nevo**. In addition, there will be minicourses by **Klaus Altmann** (FU) and **Jake Solomon** (HUJI), guest lectures, and a social program.

Location and Dates

The workshop will take place at the Einstein Institute of Mathematics, the Hebrew University of Jerusalem.

Participants are expected to arrive on Monday, October 1st, and the workshop will end on Thursday, October 11th.

Housing and some travel and local expenses will be covered.

Application

To apply please send an email to huji.math.undergrad.workshop@gmail.com with the following information:

- Your name, gender, address, and institution. Female students are encouraged to apply.
- A grade transcript with a clear listing of the courses you've taken so far in your mathematical studies (an informal transcript is OK).
- The name of a contact person from whom we may request a recommendation letter.
